

Essex Library Service are pleased to announce that we will be launching a new Sustainability Library Challenge in September 2023.

This challenge is for the young people of Essex in secondary schools.

The aim of our challenge is simple – to help you be more sustainable and climate conscious.

All you need to do is complete six of our tasks, and you will receive a certificate and digital badge.

Here are some examples of the tasks you can complete:

- Read and review a book from our curated booklist
- Attend one of our library events
- Recycle your batteries at your local library
- Sign up to the Love Essex 'Love Your Period' Pledge
- Budget a meal plan for a week, where at least one day is meat and dairy free
- Download the Essex Carbon Cutting App

In taking part you will be showing your commitment to making the planet a more sustainable place. Register your interest now to receive special communications throughout the summer and invites to special events at the library.
