

Homework 14.11.2025

This week in maths the children have been learning about partitioning a group of objects into 2 or more parts. For homework we would like you to partition the images below using the part-part whole model.

Example:

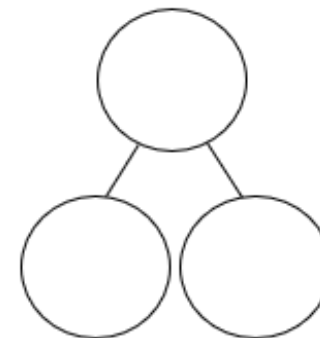

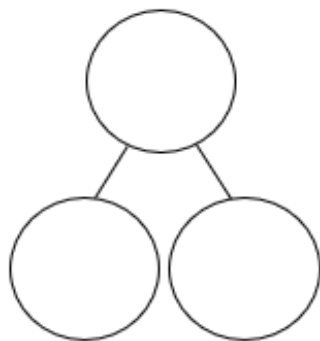

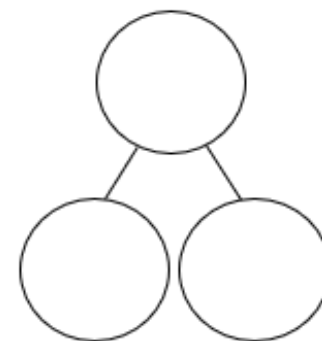

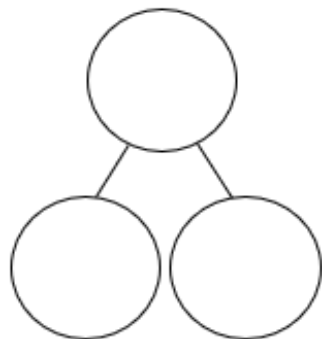

There are
4 apples.

There are
2 bananas.

Partition the objects into 2 parts.

★ **Star challenge**

Gather 8 objects. How many ways can you partition 8 into 2 parts (record by drawing or taking a photo)
