## <u>English</u>

# Phonics and spelling:

Taught in daily lessons covering Phase 6 of Letters and Sounds.

# Grammar and Punctuation:

Taught throughout each text type, as appropriate.

# <u>Reading:</u>

We will alternate between carousel and whole class guided reading. The children will learn new vocabulary, make predictions and answer questions. We will also make links between texts.

## Book approach to teaching:

We will be reading a number of books and completing a range of activities to develop writing skills.

# <u>Music</u>

Exploring improvisation - How does music connect us with the environment?

The children will continue to develop their understanding of listening, singing, playing, improvising and composing and performing. They will enjoy hearing a range of songs and playing glockenspiels.

# <u>Art</u>

We will study the work of French artist Henri Rousseau. The children will look at and discuss a range of his work. They will then develop their skills of drawing leaves, trees and animals before creating a final piece in the style of one of Rousseau's pieces.

#### <u>Computing</u>

#### Making music unit 2.7

We will enjoy composing music using the software 2sequence. The children will continue to develop their musical understanding of instruments as well as pulse and rhythm.

#### Presenting ideas unit 2.8

The children will use software to present information in a range of ways including a fact file, a presentation, a quiz, a mind map and e-story.

Throughout the topic the children will also be reminded of how to stay safe whilst using the internet and sharing information.

The children will enjoy a range of sporting events during this half term. This will include being taught by a Cricket coach, completing a 'Mini-Games' competition and enjoying taking part in the whole school Sports Day.

The children will also develop their fitness and athletics skills during their twice weekly PE lessons.

## <u>Geography</u>

#### Locational knowledge

The children will be revising their knowledge of the continents and oceans.

### <u>Place knowledge</u>

The children will focus on learning about and comparing the Amazon Rainforest in Brazil to their previous studies of Kenya and London.

## Human and Physical Geography

We will learn about the Indigenous Tribe and compare their lives to those of the Maasai Tribe in Kenya and our lives in England.

# <u>Science</u>

## Animals including humans

We will investigate and describe the basic needs of humans and other animals for survival (water, food and air).

The children will understand the importance of exercise and hygiene. They will classify different foods according to their food group and the learn about the role of food groups in nutrition, linked to the correct amounts of foods for a balanced diet.

# **Mathematics**

## <u>Measurement: mass, capacity and</u> <u>temperature</u>

Choose and use appropriate standard units to estimate and measure length/height in any direction (m/cm); mass (kg/g); temperature (°C); capacity (litres/ml) to the nearest appropriate unit, using rulers, scales, thermometers and measuring vessels. Compare and order lengths, mass, volume/capacity and record the results using >, < and =

### Ongoing times table work:

2's, 3's, 5's and 10's

Problem solving

We will apply our mathematical understanding to a range of one and two step problems.

# RE

## Special words and stories

The children will consider stories , poems and songs that are special to them, as well as their school, local community and country. They will also consider special words and stories for the religion of Christianity and of other faiths from around the world.

# PSHE

# Growing and changing

The children will be focusing on both physical and emotional changes during their PSHE work. Linked to our science topic the children will think about the parts of their body and how they grow and change. We will also consider emotional changes within our lives including loosing friends and family, giving and receiving feedback and respecting privacy of others and ourselves.
