29th November 2023

Dear Parent,

Children's Flu Vaccine

The Community School Aged Immunisation Service have already visited your child's school to deliver the flu vaccine. However, we know that some children have missed out and may remain vulnerable to serious or even fatal illness that could have been prevented by the vaccine.

The programme for vaccinating children is due to end mid-December. If you would like your child/the child in your care to be vaccinated against flu, this can still be arranged by contacting the service directly.

There are community clinics available for children or young people who have missed any of the school-based sessions. Details of the community clinic dates, times and venues can be obtained by calling your local Immunisation Team office **on 0300 790 0597**.

More information about flu immunisations in England can be found here: [Protecting your child against flu; Information for parents and carers \(publishing.service.gov.uk\)](https://publishing.service.gov.uk/government/publications/protecting-your-child-against-flu-information-for-parents-and-carers)

Yours Sincerely

NHS England – East of England
