

Friday 5th December 2025

Over the next two weeks the children will be learning about 2D and 3D shapes in Maths.

For homework we would like the children to be Shape Detectives and find as many different 2D and 3D shapes around your home and garden as you can. Can they tell you what the real-life object is and the shape (or shapes) that they have found in it?

- cereal box - cuboid, rectangles, squares
- can of soup - cylinder, circles

We look forward to seeing all the shapes you discover.

Draw and label the shapes in your homework book.
