

Homework 24.11.2023

This half term in Maths we have been focusing on addition and subtraction. The children have been introduced to a range of methods to work out sums, including; using objects, drawing dots, a number line, and a blank number line.

For homework this week we would like you to answer the addition and subtraction sums. Choose a method that works best for you. Write the sum out in your homework book and if drawing dots/using a blank number line, don't forget to show your working out.

Remember to check the symbol + or –
