

## Reception Homework – Friday 15<sup>th</sup> May 2026

Once your homework is completed, take a photo or video and upload it onto Tapestry.  
Please give it the title: Homework 15.05.2026

Activity:

In school, we have been starting to learn number bonds to 10. These are the two numbers that when added together make 10. For your homework this week, we would like you to watch the video on BBC Bitesize and then play the game underneath:

[Number bonds to 10 | Reception maths | Number bonds to 10 worksheet - BBC Bitesize](#)

You could then explore the other activities underneath. Remember, you can use your fingers to help you by having all 10 fingers up and then putting down the number of fingers we know to see how many are left.

*Parents:*

- Support your child with using the internet to complete this week's homework.
- Support your child with working out the number bonds to 10.
- Support your child to use their fingers to work out the number bonds to 10.
