

It's all about school milk!

How can my child benefit from school milk?

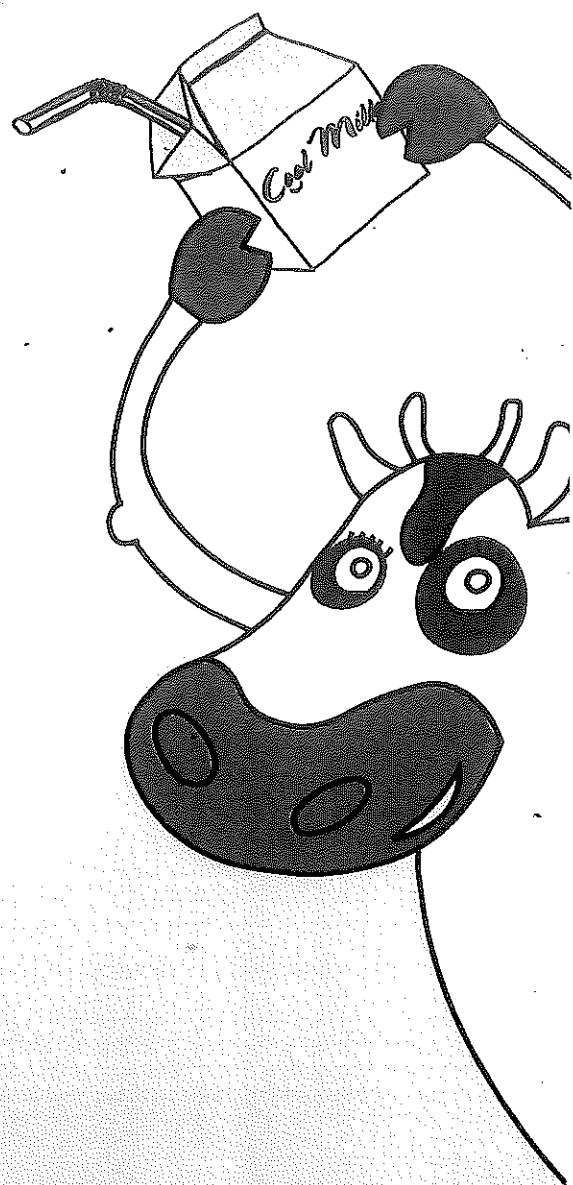

Simply register your child and they will receive milk from the next available day of delivery. You can register online by visiting www.coolmilk.com or by filling in a registration form and returning it to **FREEPOST COOL MILK**.

Who is Cool Milk?

Cool Milk is the approved school milk supplier for your child's school. We are working in partnership with your local authority and your child's school to make sure that every child has the opportunity to receive fresh and chilled milk in class every day.

My child is over five can they still receive milk?

School milk through Cool Milk is free for children until a child turns five. When your child turns five they can still receive milk and all the benefits it brings at a subsidised price. Cool Milk will then send you a payment request inviting you to make a payment or you can register online and make a payment straightaway!

"A drink of milk mid-morning can be particularly beneficial. As well as providing essential nutrients, it also gives an energy boost in a way that does not harm teeth, aiding concentration, memory and creativity in class."

Dr Hilary Jones
GP, Breakfast TV Health Editor
and Medical Advisor to Cool Milk
